Message

My best wishes to the dynamic team of Just 'Agriculture Magazine' for inviting & publishing popular and technical articles, success stories and short communications. This initiative will be helpful in increasing the thinking, writing and reading capacity of agriculture students and researchers. It is a well-known fact that agriculture is the backbone of Indian Economy but increasing population is becoming a threat to the food and nutrition security of the nation. To achieve the goal of food & nutrition security it is important to implement the scientific techniques in modern Indian Agriculture. This magazine can guide the farmers for practicing agricultural activities in a scientific manner.

It's my firm belief that this magazine will definitely increase the awareness among agricultural students and will act as a medium for all of them to join and share their innovative ideas.

I congratulate Mr. D.P.S Badwal, Mr. Abhishek, Mr. Mohit Bharadwaj and entire team of the 'Just Agriculture' magazine for conceiving of this idea to promote the science and knowledge transmission to the society.

With kind regards

(Dr. Ram Swaroop Meena)
